

iConceive[®]

A game-changing
iVF support tool your
patients and team
will love.

The iConceive[®] Clinic Hub and
App streamline iVF management,
making it easier for practices and
patients to stay connected.

Everything your patients need, at the touch of a button.

Help patients stay informed, track treatments, and reduce anxiety with real-time updates and personalised support - all in the one revolutionary app.

- ✔ Treatment timeline
- ✔ Treatment alerts
- ✔ Medication tracker
- ✔ Chat function
- ✔ Helpful iVF guides
- ✔ Plus more

Less stress...
more support.

The safe & secure online iVF portal you've been looking for.

Designed by Australian iVF experts for iVF doctors, nurses, and their patients.

- ✔ **Reduce Stress:** Real-time updates and medication tracking reduce stress on both patients and practices.
- ✔ **Boost Patient Confidence:** Patients feel less overwhelmed with real-time support and seamless communication.
- ✔ **Save Time:** Streamline communication between patients and practices via the connected iVF app and Clinic Hub software to save time on admin tasks.
- ✔ **Increase Productivity:** Automate routine processes (medication and test schedule reminders) so staff can focus more on patient care rather than admin tasks.
- ✔ **Cost-effective:** No setup costs, no install costs.* With a simple pay per-cycle model, you stay in control of how this service is passed on to patients, making it easy to provide next-level support.
- ✔ **Safe & Secure:** Built to best practice data privacy protection standards, safeguarding sensitive patient information at every step of their iVF journey.

Test Drive...
iConceive®
...The iVF Portal

All iVF clinicians are invited
to take iConceive® for a
FREE TEST DRIVE!

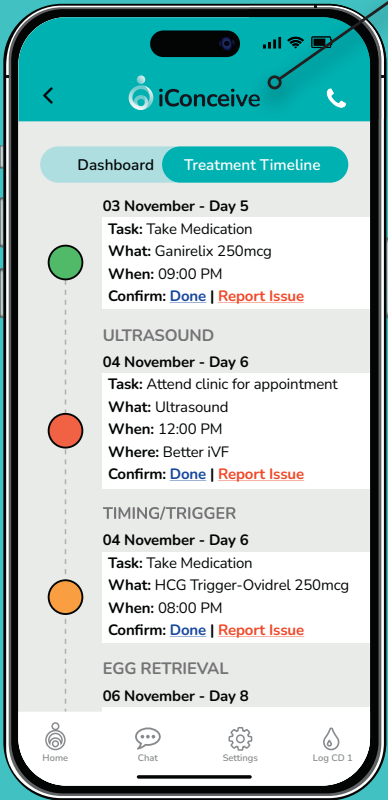

Scan the QR Code above to visit website and register.

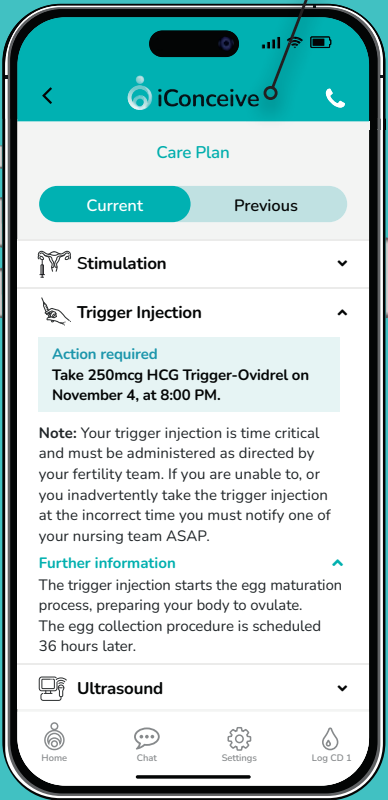

* Some large clinics may need help with bulk secure patient data transfers into their Clinic Hub portal which the iConceive® auxiliary services team can provide cost estimates.

iConceive® Clinic Hub closes the support loop between your practice & patients.

Integrating seamlessly with your patients smartphone app, for proactive support and treatment coaching.

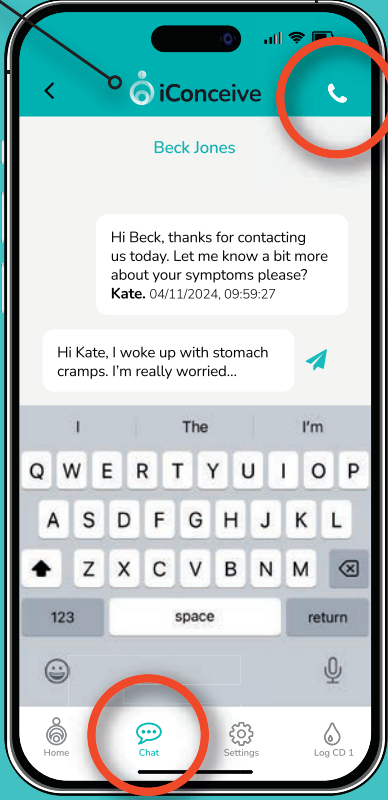

iVF cycle timeline with traffic light
